

SAHAJANAND INTERNATIONAL SCHOOL

2019-20

Annual Report

We, the Sahajanand International School believe in leaving 'no stones unturned' when it comes to the healthy and holistic well being of our students. So the yearly planning with respect to the kinds of activities involved so as to effect holistic development in our learners goes beyond all barriers of place, language, culture etc. subtly blending in with their curriculum, thus enabling them in their journey to become futuristic global citizens.

With the honest intention of strengthening the conviction and bond that they nurture in the constructive and progressive working of the institution, we share a few highlights of this highly productive academic year 2019-20. It has been the objective of Laxminarayan Education Trust to provide its team members with the best of services so as to uphold the esteemed and rich heritage of the institution.

Learners start a day with theme based Assembly: We at Sahajanand International School start our day with interesting activities and innovation.

Academics: School believes in strong fundamentals of the knowledge as per the changing era of technology with smart class and new innovative methods of teaching like activity based, experimental, group discussion, role play etc.

Co-Curricular and Extra-Curricular Activities: Our students get develop day by day for public speaking, confidence, attitude, character, moral values, value education, humanity, arts, environmental sensitivity, heritage and culture preservation and development, and multiple intelligence through weekly co-curricular activities planned.

Learners have been appearing for Competitive exams, such as National Science Olympiad, International Maths Olympiad, etc

Our learners have participated in Co-curricular Activities too. This year many students participated in khelmahakumbh and interschool competitions.

As discipline is observed as the most under-rated, least understood aspect of student life, it became imperative on the part of the institution to highlight the importance of discipline and pertaining to this a Student Council Committee has been formed under four houses and in-charges. The committee takes disciplinary measures foremost regarding wearing proper uniform, completion of home-assignment and other in-disciplinary activities, participation in different activities

To extend their learning beyond the classroom, the learners had educational visits to places of Science importance during this academic year.

Service to Mankind: We teach our students to serve mankind through joy of giving, serving for save water, save trees and save electricity.

Music: The benefits of integrating music with academics are immeasurable such as music help learn better.

Arts and Craft Education: Arts and Craft education gives immense development of children interest. It establishes a positive learning state, creates a desired atmosphere, builds a sense of anticipation, energize learning activities, change brain wave states, focus concentration, increase attention span, improve memory, release tension etc.
